

In the summer term of Year 4 all children will take part in a multiplication check. The purpose of the check is to determine whether your child can fluently recall their times tables up to 12, which is essential for future success in mathematics. For more information on the multiplication check please see the government website:

<https://www.gov.uk/government/publications/multiplication-tables-check-information-for-parents>

You can support your children with learning their times tables through practise and games at home. See some ideas and websites below that can be used to help!

- Times Table Rock Stars
