

Year 6 Summer Term Newsletter

Welcome back to what we hope is going to be a really successful and happy final term in year 6. We are so pleased to be back and ready to get going with learning. We cannot believe that it is the final term already! Although, there will be lots of fun and exciting things along the way including our residential trip and lots of fun projects once our SATS are complete!

Our theme

For the summer term, our topic is 'Jumanji'. We will be linking all our learning to the film Jumanji. This includes drawing eyes in our art lessons, creating Jumanji inspired games in DT and map drawing in Geography. The children will have the opportunity to design their own Jumanji board games and immerse themselves within the film.

English

Our writing in English will also be linked to our theme and we will be writing narratives and descriptions based around Jumanji. We will also be writing persuasive leaflets, persuading people to come and visit our own Jumanji theme parks, which we will create! Through all of this writing, we will continue to improve our grammar and sentence structure skills.

In addition, we will continue to work on our reading skills of inference and deduction as well as learning new vocabulary and improving our reading fluency.

Maths

Our Maths lessons this term will have a large focus on revising all the topics we have previously covered. We will ensure that all children are confident in using formal methods to calculate with the four operations and also have a good grasp of mathematical vocabulary. We will continue to look at the key skills required to answer mathematical questions quickly and effectively.

You can continue to support your child by engaging them in every day maths situations including telling the time, handling money and reading measures. In order to prepare children for their SATs, practicing the four operations of addition, subtraction, multiplication and division will be essential. It is also important your child knows the times tables up to the twelve times table, forwards and backwards, and the associated division facts e.g. $63 \div 9 = 7$. All children have access to Times Table Rock-Stars and should be using this regularly.

Year 6 Summer Term Newsletter

Key Messages

- PE lessons: On the day of your child's P.E lesson, they are to come to school in their kits (tracksuits, a white T shirt and a school sweat shirt. They can bring a different sweat shirt to change into.
- Check your class dojo story to find the P.E days for your child's class
- Thank you for your support in sending the children to school in the correct uniform.

Future dates for Year 6

- Monday 30th June to Wednesday 2nd July—6C & half of 6H
- Wednesday 2nd July to Friday 4th July—6JC and half of 6H

The year 6 team would like to thank you for your continued support.

Kind regards,

Miss Harvey, Mrs Lees and Mrs Marshall
